

# Validity of EcoVadis Certificate

Updated every 3 years / New Scorecard: Q1/2025

## What is the background?

- Covestro is part of the Together for Sustainability (TfS) initiative and assessed by EcoVadis as part of the TfS initiative.
- TfS is a multinational network of chemical companies, such as Evonik Industries, BASF, Bayer, Henkel.
- TfS selected EcoVadis as its CSR assessment partner to assess, promote and improve the sustainability performance of its chemical supply chains through a common infrastructure.

## What does that mean exactly?

Covestro takes part in a new assessment by EcoVadis every 3 year.

The scorecards of TfS trading partners are shared with TfS members via the EcoVadis platform.

The scorecard of TfS members remains valid even if access via the EcoVadis platform expires after 12 months.
